

## **Advisers**

### **Gabriel Cretu – CEO of Advisers**

Advisers has proved to be, throughout the years, a responsible lending institution. Not only we have solid financial results, but we are also considered a reliable partner by our customers.

This is why we believe that, during these challenging times, our compass is showing, more than ever, the right direction: trustworthy relationships, mutual respect, flexibility. Also, we follow carefully all the legislative changes in Romania, all the measures that are taken in order to help the private sector and we communicate them to our clients, so they can benefit from all the facilities (such as: loans guaranteed by the state, facilities regarding taxation etc) proposed by the Romanian Authorities.

Yes, we are working from home, but that also means we are on duty 24/7, all of us, like never before, thus improving our reactions to the challenges we face.

Our good results even during this period of time come from our beliefs: constant focus, fast reactions, calm decisions are fundamental.
